

Getting the Most From NEworks

Integrated Help:

Need assistance understanding a data set? NEworks has help options incorporated within the site. Look for the small circular question mark to get help.

Sort Data:

Set your preferences in the display options by selecting both the number of records you would like to view and the sort order. To resort data easily, click on the column header for the variable you wish to sort by.

To sort on any column, click a column title.

Rank	Area Name	Average Weekly Wage
2	Adams County	\$877
7	Buffalo County	\$734
3	Dakota County	\$876
8	Dodge County	\$701
1	Douglas County	\$992
4	Lancaster County	\$798
6	Platte County	\$763
9	Sarpy County	\$701
10	Thurston County	\$664
5	Washington County	\$789

Export Data:

Generate your own data set and export it for further usage. Data that can be exported from the site will have an option at the bottom of the section. Data can be exported in either Excel or text format.

Choose the Right Mode:

- **Summary mode** displays all available information for that area, industry, or occupation.
- **Narrative mode** provides an easy-to-read text summary of the data.
- **Detail mode** focuses on one specific attribute (wages, projected employment, etc.).
- **Comparison mode** allows you to choose two areas, industries, or occupations and study the different characteristics of each.

Create Maps and Graphs:

In the display options, check the boxes for Graphs or Maps. To zoom in on maps, draw a box on it while holding down the shift key. Microsoft Silverlight must be installed in order to view these elements.

Data Sources:

Data on the NEworks site comes from a variety of sources, including BLS programs, the US Census, and online job postings. Be aware that data from online job postings is not gathered by the Dept. of Labor and is for informational use only. Such data should not be used for analysis or reporting.

Navigating the NEworks LMI Analyzer

NEworks Sidebar Quick Access to the Data You Need

A Labor Market Facts

Access the most commonly asked labor market information questions. If you have a specific question and are unsure where to start, the answer may be here. Each question has a direct links to the data that will provide you with the correct answers.

B Area Profile

View information for the entire state of Nebraska or a specific region, county, or metropolitan area. View demographic make-up, occupation and wage information, unemployment rates, businesses, and more.

C Occupation Profile

Select an occupation and view details for that profession. Occupational data includes information on job seekers looking for a job in that specific occupation, the labor supply and market demand, education requirements, training and work experience requirements, a summary of the typical job duties of an occupation, wage data, and more.

D Industry Profile

Search or browse for different industries. View employment data, industry and occupational projections, staffing patterns, and details for specific employers in that area.

E Employers

View site-specific information about employers in a selected area. Find specific local employer sites and their corporate headquarters, and view lists of employers based on the number of jobs they are posting.

F Historic Data Analysis

View trends in industries, occupations, and the labor force over time. Access commuting patterns, population, income, and economic indicators.

The screenshot shows the NEworks LMI Analyzer website. At the top is a navigation bar with links: Home, Register or Sign In Here, Services for Individuals, Services for Employers, and Labor Market Analysis. Below this is a sidebar with the NEworks logo and a menu. The main content area is divided into four panels: Labor Market Data, Publications, Resource Library, and Career Resources. To the right of the main content is a section for Unemployment Rates, including a table and a line graph. A 'Noteworthy' banner is at the bottom right.
